	2. The CIA agreed to the addition of 200 plus targets in Vietnam to the Priority List. The Committee agreed to review the validity of Yai Cheng Coastal Defense Site which was reported by NPIC to be an electronics facility.
	3. The Committee approved the Chairman's draft memorandum to the Chairman, EXSUBCOM stating the ICRS readout requirements for Mission 1050.
	4. Chairman informed the members that he had received a request from the ARGO Committee via for KH-4 coverage of the which presently has a record snow cover. recommended that 2 minimum bursts be expended in this area on Mission 1050 in order to provide a sample coverage of the area. The CIA and DIA members
[stated that the Committee should be provided more justification before a decision is made. The Air Force member stated that it was his opinion that the requirement

	instructed ICRS to review the need for establishing a requirement paper for reconnaissance coverage in the Middle East. Chairman requested that members have their input available by the end of March in order that a final paper could be approved in early April. The CIA member stated that it was his opinion the paper should be limited to a realistic requirement for satellite coverage only since it was highly unlikely that higher authorities would approve the use of manned vehicles. The Chairman stated that ICRS should consider the possiblity of establishing an area and target coverage requirement similar to the one for the Communist countries.
	6. Navy member submitted a memorandum containing input to an ICRS paper on guidance for satellite scheduling. The Chairman requested the other members provide their input as soon as possible.
	IMPACT AREAS
	7. Chairman requested members review the GMAIC Paper 3 March 1969) and determine if the targets referenced therein are still valid collection requirements, inasmuch as GMAIC does not require readout on the referenced targets. He reported this would be scheduled as an agenda item at the next meeting.
	PRELIMINARY FILM PLANNING - 1050
